-  Free Service 
-  Vehicle Tracking System
through GPRS 
-  Advance Life Support 

Ambulance inaugurated on 15th March 2022.

- Uthishta is a multifaceted organization started in the year 2013 with a noble purpose of serving the underprivileged & deserving section of population in society, by reaching out to them with programs and activities to foster their self-reliance and thereby thriving to minimize their external dependence for day-to-day living. Ever since its beginning, our programs were well appreciated by the society for its sustainable and impactful interventions in their daily life and transparency and promptness in execution.
- Our Free ambulance service programme supported by the CSR initiative of M/s. Nagra Vision (India) Private Limited- which has just completed one year in operation at Bangalore has been in the forefront of helping the needy and deserving patients from the economically weaker sections of the population. This initiative from Uthishta, was well received by the patients-who have availed the facility and also much appreciated by the medical fraternity from healthcare institutes where we have extended the service.

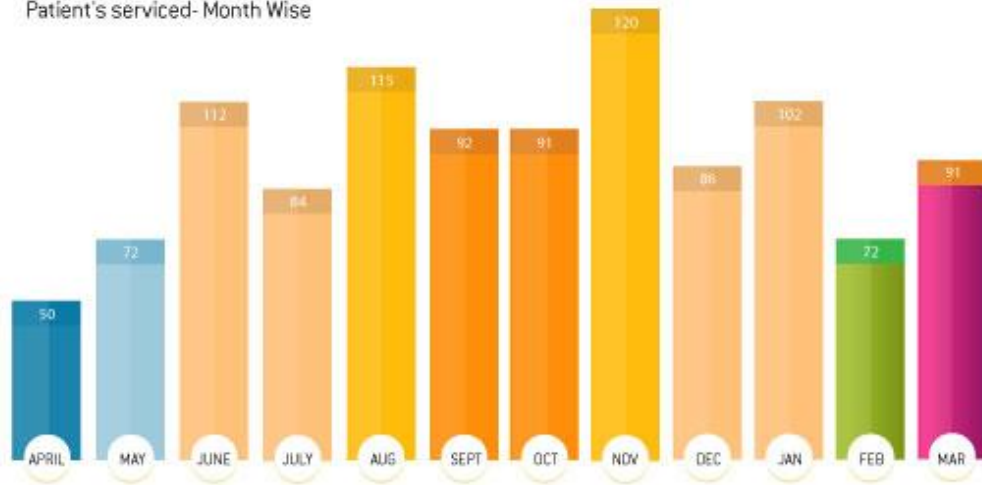

Moved 1087 Patients

Covered over 25594 KM

182 missed Services

363/365 days

Patient's serviced- Month Wise

Patient Pick-up Schedule

During my past three years of working at Sir CV Raman hospital, it was nothing short of a 'dream come true' or boon for the patients and their relatives as we were struggling to get the ambulances in time of need for the patients. Not only we were able to save a lot of life's during last one year with the help of Ambulance service provided by Uthishta, it was also great help for other patients when they were in need of transferring to other hospitals for added medical support. Last but not the least, one more point I am extremely glad to share is that the staff members are very helpful, well-mannered and quite disciplined while executing their duty. I wish, Uthishta comes up with additional services like this in coming years, as sometimes we observe requirement of one more well-equipped ambulance for shifting seriously ill patients to other medical institutes

Medical Suprent,
Sir C V Raman General Hospital

Auto Loading Stretcher

Patient Monitor

Defibrillator

Oxygen

Suction Machine

Syringe Pump

The ambulance service provided by Uthishta is like a boon for the needy and underprivileged. In my experience over last one year the ambulance service provided by Uthishta was just one call away and their service is highly appreciated by patient's relatives. The warm, cordial and trained staff is very helpful for shifting the staff from hospital bed to van and vice versa also... I personally and on behalf of the hospital are very thankful for the priceless service offered by them.. Thanks a ton.

Dr. Shashikala
RMO, Sir CV Raman General Hospital

Uthishta Ambulance service is free and it sounded much better, when they called us to enquire about the patient's condition. Their 24/7 service and quality standards make them the best.
